COMPLETE CARE.

## Call your doctor and schedule your yearly well visit.

You go to the doctor when you are sick, but yearly well visits are just as important for your health.

These well visits help you:

- Prevent illness and disease
- Ask questions and talk about concerns
- Talk about medications you are taking

Call **911** if you have a medical emergency.

Take this handy checklist with you to your doctor. This will help make sure you get the care you need.
