The matrix below contains all of the CPT-4 codes for which National Imaging Associates (NIA)<sup>1</sup> authorizes on behalf of its clients. This matrix is designed to assist in the resolution of claims adjudication and claims questions related to those procedures authorized by NIA.

### Interventional Pain Management: Outpatient

If a procedure is billed under any one of the given codes for that allowable billed groupings and a valid authorization number has been issued within the date of service validity period, the charge for any of the allowable billed grouping codes should be allowed. If a family of Current Procedural Terminology (CPT) codes is not listed in this matrix, an exact match is required between the authorized CPT code and the billed CPT code. If the exact match does not occur, the charge should be adjudicated accordingly.

\*Please note: Interventional Pain Management Spine Services rendered in an emergency room, observation room or hospital inpatient setting are not managed by NIA.
