

Magellan Complete Care of Virginia Radiation Oncology Utilization Review Matrix 2020

National Imaging Associates (NIA)¹ has developed the following matrix in an effort to help its clients set up their claim processing systems. This matrix is designed to assist in the resolution of claims adjudication and claims questions related to Radiation Oncology services managed by NIA/Magellan. The matrix below contains the CPT-4 codes NIA/Magellan manages for the Radiation Oncology program. The codes listed are set up utilizing what would be seen on a professional HCFA 1500 claim form or a CMS 1450 claim form (UB-04). The inclusion of a code doesn't imply that the service would be approved, only that if we received a request for that service, it would be managed by NIA.

The "Allowable Billed Groupings" indicates that if a given procedure is authorized, any of the listed procedures codes could be submitted on a claim representing that service. This assumes that the service is performed within the validity period. If an allowable billed grouping of Current Procedural Terminology (CPT) codes is not listed in this matrix, an exact match is required between the authorized CPT code and the billed CPT code. If the exact match does not occur, the charge should be adjudicated accordingly.

Codes representing contrast agents, radiopharmaceuticals and supplies are not listed on this matrix. Codes that are submitted by facilities using Centers for Medicare and Medicaid Services (CMS) Outpatient Prospective Payment System (PPS) logic are also not incorporated into this table.

*Please note: Radiation services that are initiated while the patient is in a hospital inpatient setting, emergency room or observation room are not managed by NIA. Services initiated before the patient's coverage by this plan or before the start date of this program are also not managed by NIA.

Medicare created temporary Healthcare Common Procedure Coding System (HCPCS) G codes which will not be authorized but are payable as part of the allowed billable group if the corresponding CPT code is authorized.
